Rotary Asks SRD To Rebuild SR 700

In a strongly worded resolution adopted by the Pahokee Rotary Club at last week's luncheon meeting, the club exhorted the State Road Department, and other interested parties who are to receive copies of the resolution, to take immediate steps to re-open SR 700, popularly known as Conners Highway, which was washed out in several places by West Palm Beach Canal flood waters and has been closed to through traffic between Canal Point and Twenty-mile Bend since Oct. 9.

It was pointed out in the resolution that portions of the eastern half of SR700 has been under water during the late summer and fall season for three years in the last five years and this recurring situation, very detrimental to the business and economic welfare of the East Shore area of Lake Okeechobee, has become intolerable to its residents who are demanding that the roadbed of this stretch of highway be raised, rebuilt or whatever is necessary to immediately correct the present situation and prevent a recurrence.

"Vance Denton presented the program in which new club members gave brief histories of their lives. Those taking part on the program were Chester Batchelor, Ernest Parnell, William S. Plumer, M. P. Holman, Sgt. E. D. Dugger, C. R. Wetherington; Jr., and Alden Chase.

Blue Devils Whip Ft. Pierce Eagles

An inspired and we might add, damped good Pahokee Blue Devil team of iron men confounded the gridiron dopesters and completely broke up the ponderous two-plate system of the Fort Pierce Eagles as they soundly whipped the Suncoast Conference leaders, 26-13, on Lair Field Friday night. Boy, did those Eagle feathers fly!

The Eagles' vaunted touchdown twins, Quarterback Frank Cheatham and Halfback Billy Childress, were stopped cold on the ground by a stubborn, hard-fighting Pahokee line re-inforced by alert and fast line-backers; and their dead-end passing attack, after getting off to a moderately successful start, was beautifully broken up by the Blue Devil secondary defense in the last quarter when the Eagles, in a desperate effort to come from behind, launched 11 passes, completing only one for 17 yards.

This upset, the most outstanding in recent Pahokee football history, was not the result of an eked-out, lucky-break win. It was a clear-cut, well-earned victory in which the Blue Devils gained 350 net yards rushing, compared to 122 yards for the Eagles. In the air Fort Pierce attempted 30 passes, completing nine for 114 yards and had three intercepted by the Blue Devils, two by Half back Buford Justice who was an outstanding spoiler of Eagle aeriels. The Blue Devils were never really forced to take to the air, trying only three times and succeeding one, this one being good for 17 yards and a TD. (continued on page 8)

Masquerade Ball Elks Hall Saturday

The Pahokee BPOE Lodge 1638 is sponsoring its first benefit Halloween masquerade ball, which will be held in the Elks Hall on East Main St., Saturday, Oct. 31, starting at 10 a. m. There will be costume and door prizes.

All proceeds received from the sale of tickets at \$3 per couple will go to the Harry Anna Crippled Children's Home at Umatilla. Art Bruin and his Orchestra will furnish the dance music and there will be a vocalist, the services of these entertainers to be paid for by the lodge. Jimmy Holden and Perry Duke are in charge of general arrangements and Leonard Dobrow, ticket sales.

Pahokee Legion In Membership Drive

The 1953-54 membership goal for Fred and Percy Mansfield Post 90, Pahokee American Legion, has been set for 186 members, according to A. E. (Cotton) Funderburk, membership chairman, at a Post 90 meeting Monday night when he reported the annual membership drive is now well under way, with 89 members already signed up. If Post 90 reaches its goal it will equal its peak membership record of 186 in 1946, Funderburk said.

The group voted to support the Okeechobee American Legion Post in its invitation to Ninth District officers to conduct their annual conference in that city next spring. Perry Duke, chairman of the barbecue committee, was asked to report at the next meeting on his committee's recommendations of future activities. Tentative plans for Post 90 to sponsor a Thanksgiving turkey shoot were announced by Ralph O. Johnson, chairman of the committee in charge of arrangements.

441 Highway Group Met In Okeechobee

Manning I. Keen, president of the 441 Highway Association, presided at a meeting of the association in Okeechobee Saturday evening when Keen named R. B. Meserve of Okeechobee, H. L. Godwin of St. Cloud and Ivan L. Van Horn of Belle Glade on a nominating committee to recommend new association officers for next year.

The dinner meeting was held at the Lake Shore Restaurant, with the Okeechobee Chamber of Commerce acting as host to the group. The nominating committee was asked to give its report at the January meeting when the annual election of association officers will be held. It was reported at the meeting that Pete Schaal, Silver Spring advertising executive, is mailing each month on an average of 1,000 strip maps of US 441 for the association.

Keen was accompanied to the Okeechobee meeting by Gil Galbaldon of Pahokee, also a director in the association.

Shipments of gas-operated central heating systems increased nearly 50,000 units during the first 8 months of this year, according to the Gas Appliance Manufacturers Association.

Mayor Sells First Beans For \$2; \$1.25

The first green beans of the fall season in the Pahokee-Canal Point area were picked Monday on a "high land" field grown by Mayor Lewis Friend adjoining Canal Point road north of the US Sugar Corp. railroad tracks.

The beans were of the Contender variety and taking into consideration the unfavorable weather conditions they had to contend with during practically all of their growth, the quality and yield was usually good, according to J. C. Mock, bookkeeper at Unity Farms, where they were taken for packaging and sale.

On Monday and Tuesday approximately 3,300 bushels of beans were harvested from the Field of some 24 acres, the yield averaging close to 135 bushels per acre. Only 300 bushels, however, were graded and sold in hampers at \$2 a hamper, f. o. b. the packing house. The remainder went to canners in bulk quantity at \$1.25 a bushel.

If weather conditions permit, the harvest of the fall bean crop in the Glades will be continuous from now on but prices are not likely to reach a profitable level until frosts clean out some of the beans further north, Mr. Mock said.

Garden Club Hears Landscaping Talk

H. Leland of West Palm Beach was guest speaker at a luncheon meeting of the Pahokee-Canal Point Garden Club held in the Community Park building at Canal Point Tuesday, with Mrs. A. R. Chastain, vice president, presiding in the absence of the president, Mrs. Claude L. Shirley.

Introduced by Mrs. Chastain, the speaker gave a lecture on "The Landscaping of the Grounds of Small Homes", illustrating his lecture with blackboard drawings. Following his talk, Mr. Leland answered questions from the audience.

Mrs. Chastain also introduced Mrs. Ivan Van Horn of Belle Glade, Garden Club District director, who announced the all-day district meeting which is to be held in the Redlands area Friday, Nov. 13. She said the Belle Glade Club is planning to charter a bus for the trip to the district meeting and members of the Pahokee-Canal Point Club wishing to go by chartered bus were asked to contact Mrs. Warren, president of the Belle Glade Club. There are now 37 garden clubs and 33 garden circles within the district, Mrs. Van Horn said.

Mrs. Frank Friend, past president of the local club, presented the officers with corsages and urged all members to attend the district meeting.

Mrs. Lloyd Hundley, president of the Hibiscus Garden Circle, welcomed Mrs. R. B. Simonson and Mrs. M. P. Stanley as new members of the Hibiscus group.

Fiano selections with titles associated with gardens were played (continued on page 8)

100 Pct. Attendance For Pahokee Lions

The Pahokee Lions Club had a 100 percent attendance of members through September and also have had perfect attendance chairman, at the Tuesday luncheon meeting of the club.

In other committee reports given at the meeting of club activities during the past month, Bill Moss reported the rest rooms have been completed at Lair Athletic Field and it was announced Ralph O. Johnson will be in charge of the booth which the club plans to sponsor at the PTA Halloween carnival on the Pahokee school grounds the night of Oct. 31.

A review of the club's by-laws was given by Mr. Dobrow, past president.

Lions Join Groups Asking Rd. Repair

The resolution demanding that SRD emergency funds be used for the immediate repair and re-opening of Conners Highway between Canal Point and Twenty-mile Bend, backed jointly by civic groups in the Pahokee-Canal Point area, was adopted by the Canal Point Lions Club at its dinner meeting in the Community Park building Monday night.

Arnold Barad, who represents the club on the Community Playground Committee, reported the arrival this week of playground equipment to be installed at the newly established community playground next to the Canal Point Waterworks plant.

A. R. Chastain, membership chairman, reported an active club membership of 20. Introduced as visitors were Melvin Spooner and Leon Spooner of Pahokee and the Rev. B. William Palmer of Canal Point.

Roy Vandegrift, Jr., New League Head

Roy Vandegrift, Jr., of Pahokee was elected president of the Everglades Branch of the United Fresh Fruit and Vegetable Association at the annual election of officers and ladies night program held at the South Ocean Club Tuesday night, with R. L. (Luke) Arnold of South Bay, retiring president, presiding.

Other officers elected were Frank Dooley of Belle Glade, vice president, and Jonas Lehrer of Belle Glade, secretary-treasurer. The recommendations of the nominating committee were reported by its chairman, Jess M. Elliott of Pahokee.

The election was followed by a floor show and dancing by members and their wives who were dinner guests. Approximately 105 persons were present. Among the guests were Joffre David of Orlando, general manager of the Florida Fresh Fruit and Vegetable Association, and Mrs. David.

Orange seeds were brought to Haiti by Columbus on his second voyage in 1493, says T. E. Murphy in the October Reader's Digest. From there they were carried to Florida and were plentiful here in the 16th Century.

County Board Asks Conner's Rd. Work

Road conscious Glades residents got a boost for their morale this week when the county commission, on a motion by Commissioner Paul Rardin, asked the State Road Department to take immediate action on the rebuilding of Conners Highway.

Rardin told the commission the road has been impassable and will continue to be even after "recession of water." Since the road department's 1953 budget includes rebuilding of the highway, he asked the board for a resolution to the state calling for "immediate consideration."

Other county roads in the Canal Point, Pahokee, Belle Glade area will get a going over also. Extensive patch work and some complete rebuilding will be necessary Rardin said. His request to have the County engineer survey county roads prior to letting bids for resurfacing with plant mix gained the commission's approval.

In other action the board: Re-affirmed its stand on paving sub-division roads only on a basis whereby the property owners pay 40 cents a foot for any paving done. Commissioners denied a request by a Lake Worth resident to have Eastview ave. black-topped, because residents refused to pay and because the street is not a part of the county network of roads.

Sidewalks Will Be Built In Pahokee

The Pahokee City Council in regular session Monday night adopted a resolution relating to the construction of new concrete sidewalks in the southeast residential section. To improve the city, sidewalks are to be constructed on each side of the street between E. First St. and S. E. Second St., including Annona, Banyan and Cypress Avenues. Owners of property fronting the streets in the specified areas are ordered to construct and pave sidewalks in accordance with plans approved by the city, the walks to be completed within 30 days. If the property owners should fail to build their walks within the allotted time, the city will do so and shall have a lien on the property for the amount paid by the city for the construction of the walks.

Mrs. Dorothy Graham, city clerk, was instructed to mail a letter to each of the property owners in the specified area, informing the owners of the Council's action and explaining the city's improvement plan. In addition, Marvin Cowart, superintendent of streets and sidewalks, and Frank Thompson, building inspector, were delegated to post notices of the order for sidewalk construction on the property involved.

The Council also passed a resolution that is being adopted by all civic groups demanding that State Road Department emergency funds be released for the immediate repair and rebuilding of Conners (continued on page 8)

Okeechobee On List Of The Blue Devils

The Pahokee Blue Devils were scheduled to play the Okeechobee Brahmas on the Okeechobee Field last night (Thursday), too late for the results of the game to be reported in this week's issue of The Everglades News.

Coach Webb Pell, worried about the condition of his ailing left halfback Buford Justice, who was out of school all day Tuesday nursing a bad cold, and the natural letdown of his first string following their all-out peak performance last Friday night when they upset conference leading Fort Pierce Eagles, 26-13, was concerned about the outcome of the Okeechobee game. He saw nothing less than a hard battle in store and believed his Blue Devils would be lucky if they were able to battle the Brahmas, who have a 5-0 record to date and have already won the championship of the new Tamiami Conference, on even terms.

DO YOU REMEMBER?

HAPPENINGS IN THE LAKE OKEECHOBEE REGION

25 YEARS AGO

The Palm Beach Times carrier discovered Wednesday night that a county bridge near Belle Glade was on fire and he returned to Pahokee and gave notice. Leo Maxwell, J. H. Tidwell, Dr. D. S. Spooner, T. W. Cranford and others took the Pahokee fire engine to the bridge and saved about half of the structure. They say that a crew from Belle Glade had abandoned the bridge because they had no equipment to fight the fire. Flood waters are off of all of the roads in the upper Everglades and road conditions are better in consequence. At some points the exemption from water was brought about by hauling in material and raising the grades.

Remodeling of the sugar mill to increase its capacity again is under way after having been interrupted by the storm. The injury to the cane has not been sufficient to change the plan to grind and make sugar this season.

Daily report is made on a bulletin board at Belle Glade of the number of bodies found. T. W. Cranford has a crew of thirty men looking for bodies. Most of the bodies are so decomposed they have to be burned.

Recovery of the upper Everglades from the tropical storm of

more than an accomplished fact Sept. 16 is a thing in prospect but the progress made is promising. The lake elevation has not changed but its waters are being cut off from the farms and preparations are being made for the planting of truck crops.

From where I sit... by Joe Marsh

It's the Principal of the Thing!

Every autumn our High School has a contest to see who can get the most ads for *The Recorder*—the school magazine. The winner becomes honorary Principal for a day.

Skip Roberts won last week, and his first (and only) official act as "Principal" of the school was to announce in a loud, clear voice: "I hereby declare today a school holiday!"

Knowing Miss Gilbert, the real principal, it was no surprise to me that she laughed as hard as anybody else... and said to go right ahead.

From where I sit, it's no wonder our youngsters think Miss Gilbert's such a wonderful person (even though they know they'll have to make up that day). Her tolerance, her friendly way with people of all ages reflect in everything she does. For instance, at my house Miss Gilbert prefers tea but always respects my preference for a glass of beer. As a real person... in any community, Miss Gilbert belongs at "the head of the class."

Christian Science Group Of Canal Point

Assurance, that as human consciousness is spiritualized man is freed from sin and its penalty, will be given in all Christian Science services next Sunday. Subject of the Lesson-Sermon "to be read is" "EVERLASTING PUNISHMENT."

A verse from James (4:8) provides the Golden Text: "Draw nigh to God, and he will draw nigh to you. Cleanse your hands, ye sinners; and purify your hearts, ye double minded."

Selections from the Bible include the following from Psalms (130:3,4): "If thou, Lord, should'st mark iniquities, O Lord, who shall stand? But there is forgiveness with thee."

Readings from Science and Health with Key to the Scriptures by Mary Baker Eddy include: "We acknowledge God's forgiveness of sin in the destruction of sin and the spiritual understanding that casts out evil as unreal. But the belief in sin is punished so long as the belief lasts" (p. 497).

Credit for the thrilling upset should go to a lot of persons; to Coach Webb Pell and Coach Howard who stuck to their work of building a team in the face of carping criticism by sub-chair quarterbacks; to the substitutes who warmed the bench throughout this crucia game, but played an important part in the victory of furnishing the scrimmage opposition necessary for the first string line and to a beautifully performing backfield. Everyone concedes the Pahokee 1953 team has an outstanding backfield but such spectacular performances as Buford Justice and Hal Rosenberg, though they may occasionally break through for breath-taking runs, cannot hope to lead their team to victory unless they have the support of a hard-working line.

Investigated a charge by the local painters' union that a nonunion artist was hired to do a court house mural when the union could have provided someone for the job. Architect Maurice Holley said he was not aware that the union had such an artist since in the past contractors usually had to hire a special artist, generally a non-union man.

Board members investigated the job after receiving a letter from the union. Rardin said through the years the board has "always worked in close cooperation with the union and wanted no difficulties." It is the board policy said Chairman Lake Lytal to hire union men when ever possible.
